CYBERJAYA: Malaysia could be the next country to smash the world record for the longest Local Area Network (LAN) party.

CyberFusion 2009 @ Cyberjaya, a three-day online gaming extravaganza, is set to kick off on Friday.

It is divided into One Nation Cyberjaya, One Nation Invitational and GameFest 2009.

One Nation Cyberjaya will bring together 250 gamers who will try to get into the *Guinness Book of World Records* by playing computer games for 38 hours straight.

The 36-hour record is held by 213 players from Nvision 2008, California.

The One Nation Invitational will see more than 100 teams comprising the best gamers in Asia competing in Sudden Attack, Counter Strike 1.6, Defence of the Ancients, Call of Duty 4 and FIFA'08 for prizes worth more than RM100,000.

GameFest 2009 is a fusion LAN party with an array of mini-tournaments and competitions, games development seminars, workshops and an offline interest board and card games exhibition and competition.

The event which is organised by Cyberview Sdn Bhd and Advanced Micro Devices Inc will be held at the Multimedia University in Cyberjaya.

Cyberview managing director Redza Rafiq said the event would put Malaysia on the gaming map.

"This is going to be a highly visible event with the global gaming community fixing their sights on us. Nothing on this scale has ever happened in this country."

For details, call Lucid Events at 03-78745173 or 017-6334308 or visit www.cyberjayaevent.com.
